

Energy Star[®]

Reaching New Heights in Energy Saving

All your buildings can reach new energy saving levels with ENERGY STAR[®] and Consumers Energy. We have programs specifically designed to evaluate your buildings' energy efficiency performance and benchmark it with similar buildings across the nation. Identify facility improvement opportunities with an energy efficiency assessment, subject to qualification. ENERGY STAR[®] certified buildings use an average of 35 percent less energy and cost 50¢ less per square footage than buildings that are not certified.¹

1. ENERGY STAR[®] - Ten reasons to pursue ENERGY STAR certification
